Sanford Bell, M.D. of this city says, in relation to this subject: "Among the many contrivances, I have seen used, none come so near perfection as the Spring Shank of LORIN BROOKS, with it there is no positive confinement, but the muscles are taught properly to perform their functions, while the bones and ligaments are kept quiety and positively in their natural position in my daughter's case, they have produced great benefit."

The current of electricity is completely under the control of the operator, and can, from almost insperceptibility, be gradually increased to any strength the patient may desire, while, instead of feeling the painful spasmodic contraction of the muscles produced by all other medical instrements, a gentle current is flowing pleasantly through the nervous system. SMITH'S IODINE SOAP is the Soap and the only Soap that will eradicate and permanently remove all Eruptions, Blotches, Discolorations and Indurations of the Sain, and soften and remove glandular awellings, but that it acts as an iofallible preventative of those sanoyances, keeping the cuttele soft and pliant, and imparting to that envelop a beautiful transparency. The philosophy of its operation lies in a nutshell. It acts as a stimulant upon the torpid absorbents, causing them to take up and disburse every unnatural accumulation upon the surface, and relieving, in a very short time, any cutcular disease, whether acute or chronic. SMITH'S IODINE SOAP, used as a saive for old sores, is magical in its effects.
